Desktop Softphone App

Hosted White Label Solutions for VoIP Service Providers

Brandable Desktop Softphone App for both Windows and Mac

Telinta offers an impressive Desktop Softphone application for VoIP service providers. This brandable app can easily be downloaded by your users to their Windows and Mac computers for both inbound and outbound calls via their broadband internet connection. An icon on their desktop opens an attractive softphone application, brandable and customizable for you and your resellers. You can offer this convenient softphone app as part of a stand-alone VoIP service, or bundled together with your other prepaid and postpaid services. No browsers are required. All your user needs is a broadband internet connection, speakers or headset, and a microphone.

TeliCore™ is our robust carrier-grade platform, integrating Telinta's cutting-edge VoIP solutions with world-class Switching and Billing capabilities. With Telinta's flexible white label solutions, you and your resellers can offer a full range of services in addition to our Desktop Softphone, all under your own brand.

Cloud-based, rapid deployment, with no capital investment
